

GENERAL MEETING -November 9, 2011

Trick or Treat Street was a success and we have taken notes for next year to make it run even smoother. We made around \$1,000 on the event, which is great considering we don't use this as a fundraiser and more of an outreach to the community.

Mrs. Greubels class won the pizza party for the class that had the most candy and that will be held this Friday, November 11.

We had a Chick Fil A spirit night on Tuesday and the turn out was amazing! We are waiting to see the exact amount that was raised, and should know by Friday. We are also ordering 100 of the calendars and those will be on sale through Christmas. A flyer will go home soon.

The Limo ride lunch / Pig race will be held on Thursday November 10, 2011. We will have 2 groups of students going to Pizza hut. The pig race will be held at 2:00.

Skate City night is Monday November 14. We will have 4 chaperones to go with the students. It is crazy hat night and all students are encouraged to wear them.

We are looking into different charities to help. Hands for students is a local charity that passes out clothes to local 27j students. We voted to donate \$100 to them for help with the Uhaul that they use to transport the clothes to the delivery sites.

We are also talking about having the Shakespeare group and do a skit for the older students regarding bullying. The cost is \$550 for the skit and there is breakout sessions after the skit that 90 students will be able to attend. We would need to make sure that the assembly does not interfere with CSAP or other testing.

Treasurers report: We have around \$35,000 in the account after Trick or Treat Street.

Teachers requests will be put on hold until we find out how many of the schools computers will be refurbished.

Thanks to all of the parents who supported initiative 3D! Even though it didn't pass, we will continue on as if everything is the same. The district and individual schools will decide how next year will run.

A member of the general attendance brought up a parents night out. Val is concerned about the liabilities, but is willing to discuss it further. In the meantime, we would like to try to plan a family movie night at the school. Details to follow.
